

## The Natural Touch with WaterKote® 2K Matt

*Taking care of your timber*

The timber floor in this sunny lounge room needed refurbishing the homeowner required protection for their timber floor but they wanted it to look natural.

To achieve the desired natural look the contractor chose **WaterKote® Sealer** a sandable sealer followed by **WaterKote® 2K Matt**.

The contractor wanted to use a waterborne polyurethane system, which was both UV resistance and highly durable while achieving a natural finish. **Urethane Coatings WaterKote®** range are full polyurethane water based systems with no extra additives or waxes and provide a highly durable coating for your timber, a perfect choice for this job.

In preparation the timber floor was fully sanded and then sealed with **WaterKote® Sealer** to ensure subsequent coats remain on the surface therefore maximising the wear layer. The seal coat was followed with 2 coats of **WaterKote® 2K Matt** creating an elegant finish highlighting the natural features of the timber.

**The Result:**  
*A Happy Contractor & A Happy Homeowner!*

<b>WaterKote® - SEALER</b>	1 Component Primer/ Sealing Coat
<ul style="list-style-type: none"> <li>Reduces the risk of edge bonding &amp; tannin bleed</li> <li>Retains the natural colour of timber</li> <li>Subsequent coats remain on the surface maximising the wear layer</li> </ul>	
<b>WaterKote® 2K MATT</b>	A NEW generation 2 Component water borne polyurethane
<ul style="list-style-type: none"> <li>Exceptional flow &amp; levelling</li> <li>Full cure: 5-7 days after application. Return to service</li> </ul>
