

Blend Materials Quickly, Evenly & Efficiently, with no Time Consuming Clean Up

Vortex Mixers

- Do you hand mix difficult to blend materials?
- Do you need to blend a variety of different products?
- Would you like the efficiency of machine mixing but can't justify buying a large machine?

The Vortex Mixer could be the answer you're looking for.

The **Vortex** range of mixers are designed to mix materials in seconds they use dual axis centrifugal mixing which produces a tremendous shear force. Not only does this cause no air entrapment, no blades are required, so no time consuming clean-up of equipment.

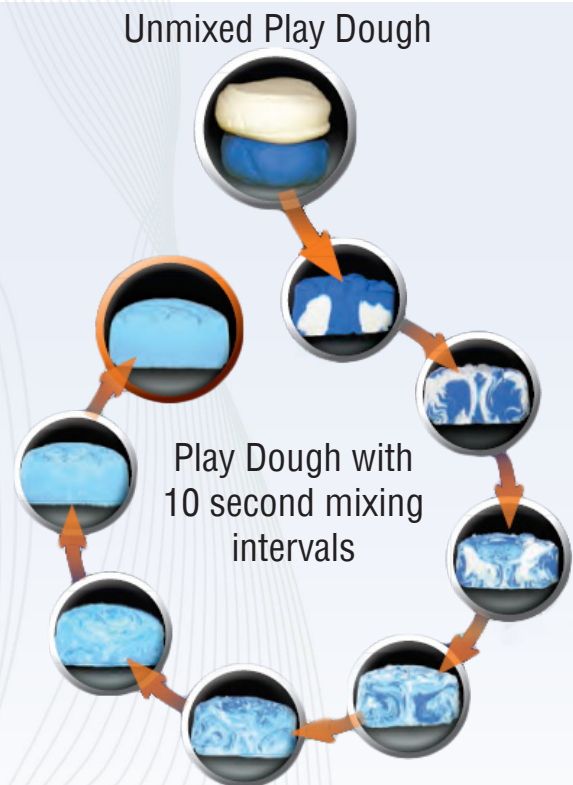

A win-win, evenly mixed material in seconds and no cleaning up!

Suitable materials for the **Vortex** mixers include:

- Epoxies
- Filled Polymers
- Inks
- **Polyurethanes**
- Silicones
- Waxes

For more information or a demonstration on **Vortex Mixers** contact:

Hugh Fraser, **Era Polymers**
Machine Specialist on +61 (0) 2 9666 3788
