

Never too Old to Restore

USE QUALITY, USE URETHANE COATINGS

Monothane 45 Gloss A Sustainable Option

The floors in this 1800's mud brick home were certainly in need of some Tender Loving Care, they were dry but otherwise solid just in need of some restoration work.

The contractor sanded, filled where needed and applied 3 thick juicy coats of Urethane Coatings, **Monothane 45 Gloss** to these dry and thirsty pine floors.

This sustainable option meant no need for a costly replacement as once treated the original floor was back in perfect working condition ready for a few more years use. Continuing to add charm as part of the original features to this building.

Monothane 45 Gloss is a transparent, single pack moisture cure polyurethane which provides a hard wearing gloss finish while maintaining the natural character of the timber.
